Message to Pinery residents from the Douglas County Wildfire Mitigation staff:

On May 23, 2012, the Douglas County Wildfire Mitigation staff sent notification to the Pinery HOA that approximately one acre of pine beetle-affected trees has been identified in the southwest portion of the Pinery, on property owned by Douglas County. The impacted trees were expected to be removed within ten days by Douglas County.

While pine beetles are a naturally occurring species of the forest ecosystem, distressed ponderosa pine trees - drought stressed, or trees stressed from overcrowding - cannot fight off the impact of the beetles as well as healthy trees can. Proactive measures such as treating actively infested trees and thinning overcrowded forests are encouraged by all property owners.

For additional information about the mountain pine beetle and mitigation practices, contact the Douglas County Wildfire Mitigation staff at 720-733-6924; For more information, go to www.pinery.org, for links to the Mountain Pine Beetle and Ips Beetle sections Colorado State Forest Service website, or contact the Franktown District of the Colorado State Forest Service at 303-660-9625.

Slash/Mulch Site Open to Minimize Fire Hazards Saturdays ONLY through September 8 a.m. to 1 p.m.

**This is a great opportunity to help in cleanup after the
hailstorm and for fire mitigation in this dry season.**

The Slash/Mulch site helps residents minimize fire hazards by providing a location to dispose of dead tree branches and shrubbery that have been cleared from personal property. Douglas County operates the slash/mulch site on Saturdays from Memorial Day through Labor Day each year.

Acceptable items are tree branches and shrubbery with a maximum length of 6 ft. and maximum diameter of 12 inches. All loads when brought in must be covered and tied down. Stumps, roots, lumber, railroad ties, grass, dirt, household trash, loose pine needles, appliances and weeds are NOT accepted.

In case of inclement weather, please call **303-663-6274** to ensure that the slash/mulch site will be operational.

Douglas County and the Wildfire Mitigation Specialists encourage property owners to use this opportunity to perform mitigation work and reduce hazardous fuels on their land. Douglas County Wildfire Mitigation Specialists offer free site visits to determine the safety of a property at no cost, upon request. Call 303.660.7497 to request a consultation or visit www.douglas.co.us/building/wildfire/ for information on Wildfire Mitigation.

PHA Trash Program Enrollment Form

If you are not in the Pinery Trash Program, you might want to consider joining with the over 1500 other participating homeowners. The program offers state of the art trash service including Single Stream Recycling. This provides you, with the opportunity to put paper and other recyclables together into a labeled container (we provide the labels) of your choice. Recycling must be separated from your regular household trash, but the recycling center now separates the paper from the bottles, cans, etc. You may choose to use a container with wheels and a lid for ease of handling.

In addition, our program includes the removal of one Large or Bulk Item every month. Give Waste Management a call, set the item out with your regular household trash and say goodbye. That's twelve times a year you can get rid of a sofa bed, mattress, chair or other item without additional charges. If you have more than one item in a month low rates are offered.

Go to our website, www.pinery.org for more details.

Why not join your neighbors in the Pinery Trash Program. You have everything to gain and nothing to lose... but your trash.

The Pinery Architectural Review Committee

June 6, 2012 Hailstorm Repairs

ARC Requirements and Contractor Selection Tips –

The recent hailstorm has caused many homeowners to need major repairs at their homes. Please keep the following in mind.

Exterior changes such as roof and siding replacement and repainting with colors other than what have been approved for your home in the past require ARC submittal. Contractors may say they will do all the “permitting” but we find that this doesn’t always include ARC submittal. ARC submittal is very easy for materials found on our Approved Materials list. Details and forms are on our website – www.pinery.org.

Once you have selected your roof, the submittal to the ARC should include:

- Manufacturer
- Style
- Color Name
- Warranty length

When staff has confirmed that the roof and color are pre-approved, you will be notified at which point you can proceed. The information will be noted at the subsequent ARC meeting and you’ll get a confirmation letter for your files.

Roofs not on the approved

list will reviewed at the next ARC meeting – submittal of a sample of the material is needed along with the above information.

Not only does submittal ensure that you property is Covenant Compliant, having a record in our files of the materials used is helpful to you! Residents find this information very helpful when working with insurance companies for future claims. We are happy to provide copies of our records in these situations.

You will need to select a contractor. The PHA cannot provide references but here are some tips to keep in mind when thoroughly checking out your contractor

- Most reputable contractors do not go door to door. If someone does knock on the door, make sure they can show you *Douglas County Sheriff’s Department* door-to-door sales permit. They are required by law to display such a permit. If you have concerns, call the Sheriff at 303-660-7500.
- If you contact someone you’ve seen advertised, look for the license plate of their vehicle; is it Colorado? If not, they might not be available to do any needed warranty work.
- Contractors doing work in Douglas County must be licensed in Douglas County

and pull appropriate permits.

- Most reputable contractors do not ask for upfront payments.
- Ask for and check references and ask to see the contractors insurance.
- Check with the BBB at <http://denver.bbb.org>

Regarding Cedar Shake Roofs

Many Pinery homes at one time had Cedar Shake roofs. Over the years, these roofs have for the most part been replaced by other, more fire-resistant materials.

In 2008, Douglas County established Wildfire Mitigation regulations. A part of these regulations are the Wildfire Hazard Regulation for Building and Development. The complete regulations can be found at: http://www.douglas.co.us/building/wildfire/Wildfire_Hazard_Regulation_for_Building_and_Development.html

The Pinery has been designated a Wildfire Hazard area as illustrated on the *Wildfire Hazard District Overlay Map*. As such, Wood Shake and Shingles are not allowed. The pertinent information for existing roofs follows.

(Hailstorm Repairs cont'd)

7-2.2 Replacement or Repair of Roof Coverings.

The roof covering on buildings or structures in existence prior to the adoption of this standard that are replaced or have twenty-five percent (25% or more replaced in a twelve (12) month period shall be replaced with a roof covering required for new construction in accordance with Chapter 7 of this Standard.

A subset of the pertinent documents is available on our website to assist you in working with your insurance company.

Pinery Signage Policy

Pinery Covenants prohibit all signage with the exception of one small sign per property for the sale or rental of a home.

Pinery policy is that signs may not be posted off of the property. Therefore, directional signs posted on an ongoing basis are prohibited.

For an open house or garage sale, one directional sign, *present for one day only at a nearby intersection*, and removed at night, is allowed.

Signs not meeting this policy on the right-of-way and common properties will be removed and brought to the PHA office.

With the exception of political signage, which has different restrictions, all other signs are prohibited, both by virtue of

Pinery Protective Covenants and the Douglas County Zoning Regulation.

Please be sure that companies doing work at your property are aware of the rules and regulations.

2012 Architectural Review Committee Election Results

The ARC Election was held as a part of the May 9 General Meeting. Of the six candidates who came forward for the four open two-year terms, the following homeowners were elected: Anne Grove, Nicola Lund (Incumbent), Brent Marsh (Incumbent), and Robert Neyens.

We want to thank all homeowners who offered their service to the community with their candidacy. We also want to thank Peter Borup, who completed his term of service with the election of the new members.

RV Storage – Have you checked for damage?

Have you checked your RV since the June 6, 2012 hailstorm? Lessees have informed us that some units were damaged, especially those with skylights on the roof. Also tarps may have been damaged.

If you have your unit repaired at the lot, remember that it is a violation of the Lease to give the combination to a third party. You need to arrange to meet your repair person at the lot and stay with them while the work is done.

Classic Pinery Filings Covenants Available Online
